

CONTINUOUS AND COMPREHENSIVE EVALUATION (CCE)

Reviews and assessments are a form of communication and should be seen as an integral part of learning and teaching. Continuous and Comprehensive Evaluation is concerned with the holistic analysis of a learner which includes both scholastic and co-scholastic areas of learner's growth with particular reference to attributes such as life skills, attitudes and values with co-curricular activities like sports, games, physical activities, fine arts and performing arts as important ingredients.
